Human Resources

Apart from the core staff, RECET is affiliated with experienced and high skilled staff covering a wide range of activities and specialization. Furthermore, RECET works together with consultants and trainers, with well established technical and professional experience as well as expertise in international synergies.

Expertise

Our expertise of project management focuses on:

- Apply the "Best Practices" of project management
- Define effectively a project and successfully participate in its implementation
- Create realistic project plans
- Identify and manage project requirements, risks and stakeholders
- Use the key elements of those project plans to successfully implement projects
- Contribute in the monitoring and controlling of projects during their execution
- Close projects and contribute in identifying lessons learned
- Work effectively with project teams

Do not press reset... just join RECET!
